

## **About Talwar and Talwar Consultants**

Talwar and Talwar Consultants, an ISO-27001 certified patent support company, provides specialized and customized patent services to more than 200 Companies (through their attorneys), including several top Fortune 500 Companies, leading Patent Law Firms, and Attorneys. Located in Chandigarh (UT), we are rated as one of the leading patent back office support companies. With our client representative in the United States (Texas and California), Europe (Germany) and Asia (China), we are well placed to support Law firms and corporate clients with the diverse set of legal and IP specific needs.

Founded in 2005, Talwar and Talwar Consultants have come a long way from the early beginnings. In just four years, we have grown to be one of the top legal outsourcing companies, offering a full range of legal and intellectual property (IP) support services. This is evident by the fact that we have been ranked amongst the top LPO vendors for the year 2009 in The Black Book of Outsourcing

We are providing a range of services like Prior Art Searches (that includes Patentability search, Invalidation search & Clearance search), Patent drafting support, Patent illustration support, PCT & Trademark Filing in India, Translation services, Landscape analysis, Portfolio analysis, E-discovery, Trial Graphics, Markush and Structure searching and Market research,. We have introduced an entry level invalidation search option and No stone unturned search in our stable of services. In the backdrop of the global recession which has led to cost cutting, we provide our clients with the restricted cost option and monthly billing option which helps them to put a ceiling on their budget.

As far as the team is concerned, TT Consultants have a strong legal backing and association from 20 attorneys. Further we are backed by a strong team of engineers and PHD's, all of whom are hired from the top technical institutes like the IIT's, IISC, Thapar university, PEC & NIT's. With such a strong team, we provide a customized expertise to attorneys and law firms in the field of Mechanical Engineering, Chemistry & Pharmaceutical, Healthcare, Telecommunications, Software, Nanotechnology, Bio-tech, Semiconductors, Wireless and Wired Networking, Metallurgy and Business Methods. We have separate and dedicated teams which are expertise in the above mentioned fields. This has helped us to ensure the quality control and efficiency which the client actually wants.

The clientele list of TT consultants consists of top Law firms and Companies from US, UK, Canada, Germany, India, China and Taiwan.
