

BALWANT RAWAT, MANAGER - IP, EATON CORPORATION (IN)

Balwant has over ten years of experience in the Intellectual Property (IP) Services industry. He is currently in charge of 'IP Center of Excellence' group at Eaton Corporation, which is responsible for creating, protecting and managing Eaton's IP. Some of his current activities include managing various programs for fostering innovation culture, conducting IP training for engineering teams and collaborating with IP attorneys, business and engineering teams globally to provide IP strategy, research, protection and commercialization support.

Prior to Joining Eaton, Balwant worked with Evalueserve, Gurgaon as a Group Manager, where he worked on a variety of patent and trademark research projects for US, European and Indian clients. Balwant has filed two patent applications as an inventor, developed innovative IP services, authored several research papers and IP articles, and participated in many IP conferences as a speaker.

Balwant has a bachelor of technology degree in Computer Science & Engineering from the Institute of Technology, Banaras Hindu University. He is also a registered patent agent with the Indian Patent Office.
